August 24, 2016

To Blaine County Commissions;

As a resident of East Fork Road, I want to request that the proposed application for the Camp Rainbow Gold project be subject to the same process and standards as any other large-development. This should include review of the conditional use application by the Planning and Zoning Commission. This project is an order magnitude larger than existing zoning would allow. It is important that all people living in the affected area should have sufficient opportunity to review and comment on the Camp Rainbow Gold proposal.

Thank you for your consideration,
