Dave,
I have never had responses from you as to my questions and I believe that the Blaine County P& Z would be interested in this information as well.

Kiki, I am traveling this week but have received your three emails with the requests for additional information. Additionally, one of the engineering leaders who was involved in some of the analysis is on vacation this week. I have forwarded your requests to the engineering staff for them to compile the information requested. I anticipate being able to provide a response to each of the requests next week.

Subject: [EXTERNAL] Real numbers of Sun Valley Co usage

Dave –
Sun Valley company uses an incredible amount of power snowmaking and running ski lifts and mountain lodges. We really need the exact data on this historically as it is non-essential in an emergency, and should be broken out of peak power load in an emergency, and subtracted from your Calculations as per pages A2-A7 to determine heating load.
