**Subject:** Support for the new Animal Shelter

I am very much in favor of the new shelter project for our valley. The ASWRV is already a community favorite and the new facility will be a hub for all our pet friendly folk. The Shelter can do much more to save lives and vastly improve the quality of care given. The current size and conditions at the shelter do not reflect the heartfelt care the staff and volunteers have. The Shelter can be a regional leader in sheltering and best practices. The mission of ASWRV is to change lives for people and pets and this project will do that beautifully.
