**Subject:** EAST FORK / CAMP RAINBOW GOLD

Greetings,

For your consideration..

Camp Rainbow Gold is a wonderful organization, their mission is awesome and the kids deserve all that they can enjoy from "Camp"..

To the point: their proposed location is a mistake. The reality is overshadowed by sole achievement of their/goal of procuring "their location".

There are other locations that are more suited to the "Camp" that are economical, safer for the kids, already commercially zoned, better highway access to Hospital etc. etc.

Some of the many East Fork Problems/Concerns:

R 40, Road condition, fire protection, water rights, water supply, water table for the entire East Fork drainage, game migration corridor, distance and time to hospital services, additional traffic on East Fork Rd., Future Renting or the facility to other entities. = year round activity/traffic/ etc. etc. 1-2 years of construction, to include massive additional traffic, of which is at capacity, noise and danger on the 9 miles of East Fork Rd. to the site which includes pedestrians, adults and kids on bikes, etc. etc. Impact on direct neighbors. Impact on the town of Triumph. The Socio Economic result on the RESIDENTIAL Community of East Fork Residents. Now numbering 385 +/- in East Fork total, which includes 110 +/- directly on East Fork Rd.

Using the adage: Opinions, Options, and Outcome (both short and long term) along with the financial/fiscal responsibility to their generous donors, the CRG board needs to abandon their "perfect location" and proceed in their search for a more realistic/practical/economically fitting locale.

Please study this one. It deserves logic and common sense decisions. It does not resemble a "retreat" as named.

See attachment ref. proceedings.
