**Subject:** New Wood River animal shelter

Dear commissioners,

Our Wood River animal shelter alumni are happily living not only in our community, but in 21 states. The shelter continues to grow, bringing more and more visitors to the valley, increasing our local economic vitality. A new facility will further increase these numbers.

A new facility will also increase adoption rates and maximize the health and happiness of both pets and people in our glorious valley. A new humane education center will teach hundreds of children valuable lessons on compassion and caring for others.

Imagine the possibilities with a state of the art, stress free campus!! As the volunteer campaign co-chair for this project, I strongly believe in the value it will bring our community. Thank you for your consideration.
