Subject: Camp Rainbow Gold

I am writing this email to show my full support in the efforts by Camp Rainbow Gold to build a "permanent home" in Blaine County. Although headquartered in Boise, CRG has always been "our" camp. Having been a counselor at CRG for several years I know what an impact the camp makes on the lives of these children. It is the one week of the year when they feel "normal " and as a parent of three children I realize just how fortunate I am every time I return from the one week stay.

Please don't allow the rehotoric to influence your decision. The distance from the hospital, when in fact, there are always well trained staff on site. The fire danger, etc.etc.

This is the perfect spot for the kids and I truly believe that once it is built there the neighbors will embrace it. People don't like change. It's human nature. But this will be a positive change for everyone. Most importantly, the kids, who deserve a little kindness and fun thrown their way one week per year.

Thank you for your time,
Tim Nelson
