Agency Review Findings

Attachment C

Pursuant to Sections 3-1,3-3, 4-3C, and 4-5C of the Blaine County Code, Title 10, Blaine County requires review by certain agencies to be received prior to certification of the application. In accordance with this requirement, the following procedure is to be followed:

1. The Administrator will indicate on the Agency Contact List, which accompanies this attachment, which offices the applicant needs to contact. These agencies are other county departments or agencies that have jurisdiction over, or interest in, the proposed development. The county requests their review in order to get recommendations on possible adverse impacts or design modifications that could help alleviate such impacts. Such determinations may require site visits.
2. The applicant shall send a transmittal letter to the agencies requesting their review. This correspondence must include the preliminary plat and vicinity map, indicating Township, Range and Section of the development. The applicant shall provide a list of the names and addresses of contacted agencies with a sample copy of the review request letter to the Land Use Office.
3. An application is certifiable when it is determined to be complete, generally conforms to county regulations, and the required agencies have responded. If written recommendations have not been received within six (6) weeks from delivery of all the required substantive information, this shall be considered a no response from the agency.
