## Standards of Evaluation

Pursuant to Chapter 25, Section 3, Title 9 (Zoning Ordinance) of the Blaine County Code

An applicant for a conditional use permit shall provide written responses to the Standards of Evaluation contained herein below in sufficient detail to allow the Commission or the Hearing Examiner to evaluate the proposed action relative to said standards. In reviewing these applications, the Commission is required to find adequate evidence to support approval or conditional approval, or in the event such information is unattainable (or unavailable), deny the application.

The commission or the Board shall review the particular facts and circumstances of each proposed conditional use in the terms of the following standards and shall find adequate evidence showing that such use at the proposed location:

1. Will, in fact, constitute a conditional use as established for the zoning district involved;
2. Will be harmonious with and in accordance with the general objectives or with any specific objective of the comprehensive plan and/or this title;
3. Will be designed, constructed, operated and maintained to be harmonious and appropriate in appearance with the existing or intended character of the general vicinity and that such use will not change the essential character of the same area. All outdoor lighting shall comply with chapter 29A of this title;
4. Will not be hazardous or disturbing to existing or future neighboring uses;
5. Will be served adequately by essential public facilities and services such as highways, streets, police and fire protection, drainage structures, refuse disposal, water and sewer and schools; or that the persons or agencies responsible for the establishment of the proposed use shall be able to provide adequately any such services;
6. Will not create excessive additional requirements at public cost for public facilities and services and will not be detrimental to the economic welfare of the community;
7. Will not involve uses, activities, processes, materials, equipment and conditions of operation that will be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare, dust, odors, vibration, water pollution or safety hazards. Water pollution includes impact to surface and ground water and potable water sources. When the proposed use involves a potential contaminant source or potential contaminant as set forth in appendix A on file in the County, and is located within a wellhead protection area, the commission shall consider the impact of the project on potable water sources and determine whether there is sufficient information in the record to demonstrate that the project has been designed to mitigate adverse impact to potable water source(s);
8. Will have vehicular approaches to the property which shall be designed as not to create an interference with traffic on surrounding public thoroughfares;
9. Will not result in the destruction, loss or damage of a natural, scenic or historic feature of major importance; and
10. If the applicant or landowner with respect to an application for a conditional use permit under this chapter is the State of Idaho, or any agency, board, department, institution, or district thereof, the commission or the Board, in addition to all other applicable standards and criteria hereunder, shall take into account the plans and needs of the State, or any agency, board, department, institution or district thereof, as required by Idaho Code section 67-6528.

B. Additional Standards: Additional standards for applications for a conditional use permit in the Floodplain Overlay District are set forth in section [9-17-9](#) of this title. (Ord. 2011-01, 1-18-2011; Ord. 2010-06, 5-25-2010; Ord. 2006-13, 10-26-2006; Ord. 2001-03, 3-19-2001; Ord. 96-3, 4-8-1996; Ord. 77-5, 3-28-1977, eff. 4-7-1977)
