

No Adverse Impact Statement

This certification is being provided pursuant to Blaine County Code 9-17-11-C-1 and 9-17-11-D-2, which require a statement of no adverse impact.

The Hohman Bridge Replacement project as designed will not cause deleterious impacts in terms of any quantifiable pertinent parameter contained in the code. There will be no effect on flood peaks, flood stage, water quality, or flood velocity. There will be no deleterious effects in terms of erosion and sedimentation.
