ARPA – SLFRF Funding Request Form - Submission #2940

Date Submitted: 2/22/2022

ARPA – SLFRF Funding Request Form

To be completed by requesting party:

Requesting Party Name

Sun Valley Culinary Institute

Contact Info (Email & Phone)

Harry@sunvalleyeconomy.org 208-721-7847

Date Submitted to Board

2/22/2022

Funding Amount Requested

2899

Check which category of ARPA funding your project meets:

Category Number One

Check Box

Responds to the COVID-19 public health emergency or its negative economic impacts (including, but not limited to: disease mitigation efforts; behavioral and other healthcare services; economic assistance or other equity-focused services to hardest-hit communities or households, such as affordable or supportive housing, and; support for impacted industries).

Category Number Two

Check Box

Supports essential workers during the COVID-19 public health emergency by providing premium pay to workers via grants to eligible employers in certain key sectors, such as, but not limited to: healthcare, grocery and food services, education, childcare, sanitation, and transit (must be fully additive to worker's wages).

Category Number Three

Check Box

For the provision of government services, to the extent of the reduction in revenue due to the COVID-19 public health emergency, relative to revenues collected in the most recent full fiscal year of the recipient prior to the emergency.

Category Number Four

Check Box

Improves water & sewer or broadband infrastructure (including investments intended to facilitate the creation of affordable and workforce housing).

10/9/2020	Formusa Engineering	\$ 525	Consulting on system installtion and calibration

\$ 2,889

Project Description – ARPA Fund Request by Sun Valley Culinary Institute

Rationale:

The Covid pandemic negatively impacted operations of Sun Valley Culinary Institute (SVCI) in a variety of ways. The newly remodeled facility at 211 N Main in Ketchum which opened its doors to the public for the 1st time on March 11th 2020 was forced to close on March 18th following Ketchum's declaration of an emergency closure order for all non-essential businesses.

All scheduled classes along with pre-booked events and activities were cancelled and the doors closed until June when Blaine Co's risk level reduced to Stage 3 limitations. Continued constraints on sizes of social gatherings and allowed number of individuals indoors due to local & state restrictions, impediments caused by local mandatory face covering ordinances, and general student /customer fears of indoor social interactions further constrained operations and imposed severe economic hardship on the operations of SVCI. Given the state of the pandemic in summer 2020, a decision was made to defer the implementation of the professional student program for one year until Fall 2021, further straining the SVCI financial position.

Project Description:

With the slight improvement of Blaine Co's risk levels in June 2020, SVCI sought ways to open its doors to limited activities with suitable safety improvements focused on covid mitigation. It consulted with a mechanical engineering expert on ways to improve indoor air quality and determined that a bi-polar air ionizing system could reduce the efficacy and spread of covid particulates in an indoor setting. Together with its HVAC contractor, SVCI selected a proven technology/product, installed it into the buildings air handling system and adjusted air inputs and controls to optimize air quality. SVCI also instituted deep cleaning, health checklists, screening and mandatory mask wearing to support improved safety at it's limited indoor activities.

Outcomes:

The air handling system improvements and procedures have functioned as intended, with no mass outbreaks of Covid resulting from class activities and other indoor events at SVCI.

Request:

SVCI as a certified 501c3 organization seeks recovery of \$2,899 expended for the installation of the indoor air handling system improvements. Invoices related to these costs are attached as part of this application. No cost recovery is sought in regard to cleaning procedures and PPE requirements associated with Covid mitigation procedures. This request meets all ARPA requirements outlined by the US Department of Treasury.
