Hailey, Idaho 83333

Dear Sam,

Thank you for taking time to review the Quigley Ranch Subdivision proposal with Mr. Royal and me yesterday. Based on our initial review of the preliminary plat documents and our conversation with you, we offer the following comments.

The proposed Quigley Ranch Subdivision preliminary plat documents are not adjacent to any school district property. This subdivision does fall within the boundaries of the Blaine County School District and any resident within those boundaries with school age children is entitled to have their children attend the Blaine County School District. As such, they are also entitled to transportation services. We request that a thorough review of the plat proposal be conducted to ensure that the district is able to safely and efficiently transport students. A turnaround location adjacent to or included within the cul-de-sacs is critical.

Respectfully,

Jim Foudy
Superintendent
Blaine County School District

Cc: Howie Royal, Director of Building and Grounds
