Blaine County P+2

Regarding the proposed additions to Quigley Farm I would like to see the county road remain where it is now and not paved. Paving the road further out will increase car traffic. We don't need that. People need to get out of their cars.

I like existing Hailey and am immediately soothed by having the feeling of being in the mountains.

I don't want to ride my bike thru another glitzy subdivision. I'd rather skirt it.

The developer has already been given so much. He is allowed so many building permits and has so much land, he could put all the lots out in the flats.

Thank you,
