Subject: [EXTERNAL]Quigley Canyon Proposed Development

You don't often get email from val.gregthom1@gmail.com. [Learn why this is important](#)

We strongly oppose the proposed development for the north side of Quigley Canyon road. There is a massive amount of new construction going on right now and the questions and concerns surrounding proper infrastructure to sustain them remain unclear.

Recently, temporary closure signs have been posted at the trail head to Buttercup in order to protect our deer and other wildlife populations so that they may exist without stress during the harshness of our winter conditions. We as trail users, respect these postings. But the developers clearly do not. Demolishing their habitat for the purpose of building these homes takes away that landscape to them PERMANENTLY. Where does it stop?

If you actually care about this valley, and the local people that utilize all these trails, as well as the look and feel of our beautiful hillsides then you will not approve this development!

If you choose to support this then rest assured, we will not be supporting you with our vote going forward.

Sincerely,

Val & Greg Thomson
Hailey
