Hi Sam,

I have reviewed the proposed subdivision. As you are aware, there is overhead power that runs along Lower Broadford Road and it adjacent to most of the lot lines. I do not know where the poles are exactly as they are not shown on the drawing you sent me. Regardless, each lot owner, should they need power, would have to supply their demand requirements and location of meters and we would design the power accordingly. There would not be a need to "install" any power right now as each lot owner would have different requirements and locations and there is power available on the road.

If you need anything else, please let me know.

Hi Cheryl,

I am working on a new subdivision in Blaine County, and county staff has requested that I obtain comment from Idaho Power. Attached is a copy of the preliminary plat for your review. Please let me know if you have any questions or comments, and we look forward to your review.

Thank you,
