Subject: FW: Dornin - 126 Alpine Lane

Hi Rachel-

Below is an explanation from Mr. Dornin about his desire for the pool and its current proposed location. Will you please add this to the record so the planning commission can have this information.

Thank you

Regards,

The original pool design is where we are proposing it now. It was only when the County said we would have to go to DRB because it's in the overlay zone that we changed it to the deck location however there isn't enough room for a 25 yard lap pool there so we never built it and now we use the deck all summer for dining, parties, etc since we don't have much flat exterior space. We always wanted a pool for legitimate lap swimming. I was on swim teams since 5 years old and played water polo in college at UC Berkeley and swim weekly to this day and my daughter is a swimmer so we want a pool we can legit swim laps in year round. We go to Zenergy all winter after skiing to swim laps and most afternoons in the summer too.
