

**JOINT APPLICATION FOR PERMITS**

**U.S. ARMY CORPS OF ENGINEERS - IDAHO DEPARTMENT OF WATER RESOURCES - IDAHO DEPARTMENT OF LANDS**

**Authorities:** The Department of Army Corps of Engineers (Corps), Idaho Department of Water Resources (IDWR), and Idaho Department of Lands (IDL) established a joint process for activities impacting jurisdictional waterways that require review and/or approval of both the Corps and State of Idaho. Department of Army permits are required by Section 10 of the Rivers & Harbors Act of 1899 for any structure(s) or work in or affecting navigable waters of the United States and by Section 404 of the Clean Water Act for the discharge of dredged or fill materials into waters of the United States, including adjacent wetlands. State permits are required under the State of Idaho, Stream Protection Act (Title 42, Chapter 38, Idaho Code and Lake Protection Act (Section 58, Chapter 13 et seq., Idaho Code). In addition the information will be used to determine compliance with Section 401 of the Clean Water Act by the appropriate State, Tribal or Federal entity.

**Joint Application:** Information provided on this application will be used in evaluating the proposed activities. Disclosure of requested information is voluntary. Failure to supply the requested information may delay processing and issuance of the appropriate permit or authorization. **Applicant will need to send a completed application, along with one (1) set of legible, black and white (8½"x11"), reproducible drawings that illustrate the location and character of the proposed project / activities to both the Corps and the State of Idaho.**

**See Instruction Guide** for assistance with Application. Accurate submission of requested information can prevent delays in reviewing and permitting your application. Drawings including vicinity maps, plan-view and section-view drawings must be submitted on 8-1/2 x 11 papers.

**Do not start work until you have received all required permits from both the Corps and the State of Idaho**

Phone Number (include area code): 208-309-1990		E-mail:			Phone Number (include area code): 208-309-1990		E-mail: bldrswest@gmail.com		
3. PROJECT NAME or TITLE: Glendale Bridge Abutment Protection					4. PROJECT STREET ADDRESS: ~112 W Glendale Road				
5. PROJECT COUNTY: Blaine County		6. PROJECT CITY: Bellevue			7. PROJECT ZIP CODE: 83313		8. NEAREST WATERWAY/WATERBODY: Big Wood River		
9. TAX PARCEL ID#: RP000200000020 & RP01N18013046A		10. LATITUDE: 43d 25' 34.3" N LONGITUDE: 114d 15' 39.3" W		11a. 1/4: SE	11b. 1/4: SW	11c. SECTION: 12 & NENW 13		11d. TOWNSHIP: 1N	11e. RANGE: 18E
12a. ESTIMATED START DATE: 4/11/2023		12b. ESTIMATED END DATE: 4/28/2023			13a. IS PROJECT LOCATED WITHIN ESTABLISHED TRIBAL RESERVATION BOUNDARIES? <input checked="" type="checkbox"/> NO <input type="checkbox"/> YES    Tribe:				
13b. IS PROJECT LOCATED IN LISTED ESA AREA? <input checked="" type="checkbox"/> NO <input type="checkbox"/> YES					13c. IS PROJECT LOCATED ON/NEAR HISTORICAL SITE? <input checked="" type="checkbox"/> NO <input type="checkbox"/> YES				
14. DIRECTIONS TO PROJECT SITE: Include vicinity map with legible crossroads, street numbers, names, landmarks. From US Highway 75, Turn West on Glendale Road. Glendale Road crosses the Big Wood River approximately 0.4 miles from US Highway 75.									
15. PURPOSE and NEED: <input type="checkbox"/> Commercial <input type="checkbox"/> Industrial <input checked="" type="checkbox"/> Public <input type="checkbox"/> Private <input type="checkbox"/> Other									
Describe the reason or purpose of your project; include a brief description of the overall project. Continue to Block 16 to detail each work activity and overall project.  Accumulated gravel in the river channel has caused the Big Wood River to shift west and the Glendale Bridge abutment protection has been eroded. Proposed work will protect the Glendale Bridge abutment and increase hydraulic conveyance in this river section. Proposed work will occur prior to the peak 2023 Spring Runoff.									

A-6  
EXHIBIT

16. DETAILED DESCRIPTION OF EACH ACTIVITY WITHIN OVERALL PROJECT. Specifically indicate portions that take place within waters of the United States, including wetlands: Include dimensions; equipment, construction, methods; erosion, sediment and turbidity controls; hydrological changes: general stream/surface water flows, estimated winter/summer flows; borrow sources, disposal locations etc.:

See attached narrative.

17. DESCRIBE ALTERNATIVES CONSIDERED to AVOID or MEASURES TAKEN to MINIMIZE and/ or COMPENSATE for IMPACTS to WATERS of the UNITED STATES, INCLUDING WETLANDS: See Instruction Guide for specific details.

Glendale Bridge is critical infrastructure providing access across the Big Wood River south of Bellevue. Erosion of Bridge abutments could result in bridge failure. Protection of infrastructure is paramount. Other designs stream channel designs were considered, but ultimately not selected.

The proposed project will have minimal impacts, by avoiding work in flowing water, sequencing work of previous Joint Application to remove gravel first will allow bank stabilization to be conducted in low water and/or dry conditions. All work will be completed prior to the 2023 spring runoff. Bank stabilization work will be conducted from the top of bank and heavy equipment will have rubber tires. Installation of sediment BMPs, such as silt fences and/or straw wattles, will be used to control sediment erosion.

18. PROPOSED MITIGATION STATEMENT or PLAN: If you believe a mitigation plan is not needed, provide a statement and your reasoning why a mitigation plan is NOT required. Or, attach a copy of your proposed mitigation plan.

No mitigation plan is required.

19. TYPE and QUANTITY of MATERIAL(S) to be discharged below the ordinary high water mark and/or wetlands:

Dirt or Topsoil:	_____	cubic yards
Dredged Material:	_____	cubic yards
Clean Sand:	_____	cubic yards
Clay:	_____	cubic yards
Gravel, Rock, or Stone:	<u>400</u>	cubic yards
Concrete:	_____	cubic yards
Other (describe): _____ :	_____	cubic yards
Other (describe): _____ :	_____	cubic yards
<b>TOTAL:</b>	<u>400</u>	<b>cubic yards</b>

20. TYPE and QUANTITY of impacts to waters of the United States, including wetlands:

Filling:	<u>0.06</u> acres	<u>2,600</u> sq ft.	<u>400</u> cubic yards
Backfill & Bedding:	_____	_____	_____
Land Clearing:	_____	_____	_____
Dredging:	_____	_____	_____
Flooding:	_____	_____	_____
Excavation:	<u>1</u> acres	<u>42,795</u> sq ft.	<u>7,925</u> cubic yards
Draining:	_____	_____	_____
Other:	_____	_____	_____
<b>TOTALS:</b>	<u>1.06</u> acres	<u>45,395</u> sq ft.	<u>8,325</u> cubic yards

21. HAVE ANY WORK ACTIVITIES STARTED ON THIS PROJECT?  NO  YES If yes, describe ALL work that has occurred including dates.

22. LIST ALL PREVIOUSLY ISSUED PERMIT AUTHORIZATIONS:

None, however a Joint Application for gravel removal has been applied for.

23.  YES, Alteration(s) are located on Public Trust Lands, Administered by Idaho Department of Lands

24. SIZE AND FLOW CAPACITY OF BRIDGE/CULVERT and DRAINAGE AREA SERVED: 665 Square Miles

25. IS PROJECT LOCATED IN A MAPPED FLOODWAY?  NO  YES If yes, contact the floodplain administrator in the local government jurisdiction in which the project is located. A Floodplain Development permit and a No-rise Certification may be required.

26a WATER QUALITY CERTIFICATION: Pursuant to the Clean Water Act, anyone who wishes to discharge dredge or fill material into the waters of the United States, either on private or public property, must obtain a Section 401 Water Quality Certification (WQC) from the appropriate water quality certifying government entity. See *Instruction Guide for further clarification and all contact information.*

The following information is requested by IDEQ and/or EPA concerning the proposed impacts to water quality and anti-degradation:

- NO  YES Is applicant willing to assume that the affected waterbody is high quality?  
 NO  YES Does applicant have water quality data relevant to determining whether the affected waterbody is high quality or not?  
 NO  YES Is the applicant willing to collect the data needed to determine whether the affected waterbody is high quality or not?

26b. BEST MANAGEMENT PRACTICES (BMP's): List the Best Management Practices and describe these practices that you will use to minimize impacts on water quality and anti-degradation of water quality. All feasible alternatives should be considered - treatment or otherwise. Select an alternative which will minimize degrading water quality

The proposed project will have minimal impacts, by avoiding work in flowing water, sequencing work to remove gravel first (another Joint Application) and conduct bank work in low water and/or dry conditions. All work will be completed prior to the 2023 spring runoff. Bank stabilization work will be conducted from the top of bank and heavy equipment will have rubber tires. Installation of sediment BMPs, such as silt fences and/or straw wattles, will be used to control sediment erosion.

Through the 401 Certification process, water quality certification will stipulate minimum management practices needed to prevent degradation.

27. LIST EACH IMPACT to stream, river, lake, reservoir, including shoreline: Attach site map with each impact location.

Activity	Name of Water Body	Intermittent Perennial	Description of Impact and Dimensions	Impact Length Linear Feet
Bank Stabilization	Big Wood River	Perennial	215-ft along western bank	215
Excavation	Big Wood River	Perennial	Approximately 600-ft by 85-ft by 5-ft	600
TOTAL STREAM IMPACTS (Linear Feet):				815

28. LIST EACH WETLAND IMPACT include mechanized clearing, fill, excavation, flood, drainage, etc. Attach site map with each impact location.

Activity	Wetland Type: Emergent, Forested, Scrub/Shrub	Distance to Water Body (linear ft)	Description of Impact Purpose: road crossing, compound, culvert, etc.	Impact Length (acres, square ft linear ft)
TOTAL WETLAND IMPACTS (Square Feet):				

29. ADJACENT PROPERTY OWNERS NOTIFICATION REQUIREM: Provide contact information of ALL adjacent property owners below.

<p>Name: Swiftsure Ranch</p> <p>Mailing Address: 114 Calypso Lane</p> <p>City: State: Zip Code: Bellevue ID 83313</p> <p>Phone Number (include area code): E-mail:</p>	<p>Name: Lakeside Industries c/o Wood River Ranch</p> <p>Mailing Address: P.O. 30. SIGNATURES: STATEMENT OF AUTHORIZATION / CERTIFICATION OF AGENT / ACCESS

*Application is hereby made for permit, or permits, to authorize the work described in this application and all supporting documentation. I certify that the information in this application is complete and accurate. I further certify that I possess the authority to undertake the work described herein; or am acting as the duly authorized agent of the applicant (Block 2). I hereby grant the agencies to which this application is made, the right to access/come upon the above-described location(s) to inspect the proposed and completed work/activities.*

Signature of Applicant: 

Date: April 04, 2023

Signature of Agent: \_\_\_\_\_

Date: \_\_\_\_\_

This application must be signed by the person who desires to undertake the proposed activity AND signed by a duly authorized agent (see Block 1, 2, 30). Further, 18 USC Section 1001 provides that: "Whoever, in any manner within the jurisdiction of any department of the United States knowingly and willfully falsifies, conceals, or covers up any trick, scheme, or disguises a material fact or makes any false, fictitious, or fraudulent statements or representations or makes or uses any false writing or document knowing same to contain any false, fictitious or fraudulent statements or entry, shall be fined not more than \$10,000 or imprisoned not more than five years or both".
