[You don't often get email from makeitgreen@me.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

Dear Angenie,

I have been following the design plans and discussions about the new development being proposed out past Quigley Farms and I continue to find it incredibly frustrating and distressing. I appreciate the P&Z's competent review and recommendations on the development and their strong vote against what is being proposed. I ask that the Commissioners take that strong review and negative recommendation seriously and vote likewise.

I have also been hearing rumors that the Commissioner's review of this issue is looking towards closed door mediation with the developer and this is even more distressing. Yes, the strong feelings of the public and their packing of the chambers is time consuming and difficult ... but!! ... this is because of the importance of this decision to stretch further into our wilderness area with estate homes is reflected in our community's strong distaste for these plans. A closed door mediation with business interests is not what I consider the basis of our democracy and I hope that this is not the road the County will be taking.

Please protect our canyon from min-estates and second home development and respect our wildlife, wilderness and community needs.

Thank you.

Elizabeth Jeffrey
