Dear commissioners,

Richard Stopol
April 1, 2023

If development to the outer reaches of Quigley Canyon was a good idea, it would have happened years ago. The "we need this golf course" idea and associated developments were thrown out fifteen, maybe twenty years ago. Proposed development out Quigley was a bad idea then and an even worse proposal now. The people of Hailey have written letters, attended hearings and made their voices clear. No, no, no! Fish and Game said no! P and Z said no! I oppose the sleazy notion of mediation in private. The public needs to be included in any proposal out the canyon. Take a walk down the roads of Sunbeam Subdivision this winter. Because of all the snow and paved roads it's a good place to walk. Unfortunately the elk seem terrified by my presence so close to where they are hovering on the bare ground of new house excavations. The winter range is already encroached upon on the now edge of Hailey at Sunbeam. It's unacceptable to further take over the winter wildlife range. That road should not be paved to accommodate more traffic and development. The development needs to stop at Quigley Farms. Thanks for listening.
