Subject: [EXTERNAL]Quigley Development

Dear Commissioners McCleary and Davis,

Another meeting another letter. Charlie and I have already submitted two letters in the last few months to the Blaine County Commissioners along with many others who strongly oppose the TVIV Quigley, LLC development.

After the March 1st meeting we were disappointed at the outcome, when we heard about the request from the TVIV Quigley legal counsel for mediation, we thought Quigley Canyon was doomed. We understood mediation would be behind closed doors and we thought that was wrong. The decision is huge. This development, with moving and paving Quigley Road, over twenty large homes with acreage, would effect all of Hailey and Blaine County residents, along with businesses, traffic, and most importantly, the valued wildlife that lives and migrates through Quigley Canyon.

The decision to mediation, the decision for negotiations, behind closed doors, are not in the public interest. Your job is to benefit the citizens of Blaine County. These decisions need to be transparent, with the public having the opportunity to express their opinions, to be recognized and be part of the decision. We believe most of the community of Blaine County oppose Quigley Ranch and wants development to stop at Quigley Farms. We hope you will listen to the P&Z who voted to deny the design of this development and the people of Blaine County.

You two have the power,
Yours, Janet and Charlie Meyer
