My wife, Diana, and I are adamantly opposed to the Quigley Ranch development that apparently will not go away - we thought that the vote last year was clear on the significant opposition to this development - but somehow the developer is still trying to get this approved - and worse yet I understand this developer is trying to get this approval through mediation or some other type of negotiation that is less open to public influence. We moved from Sun Valley to Hailey to get away from excessive development by wealthy interests. This proposed development is just that - little regard for water needs, increased traffic in the area, more paved roads and reduced walking opportunities, cutting back on the habitat for what wild animals we have remaining in the area, cutting back on recreational possibilities in the Canyon. We just do not need this. Please use your power to keep this from happening.

Richard and Diana Fassino
