Dear Commissioners McCleary and Davis,

I support PUBLIC discussions of ALL development proposals for Quigley Canyon; No closed d around for valley residents; it is a wildlife corridor; senior water rights should not be transfer maintained where and as it is.

It was so disappointing to hear about the additional development in the canyon. As with man extent of development in the canyon. It was a compromise I felt I could live with. I strongly op

This canyon is the gem of our south valley. Development would do irreparable harm to wildli winter I saw over 30 walkers and about 17 dogs in less than an hour of walking out the canyc beautiful and peaceful place just to Be.

Many of us moved here because of the proximity to the natural environment, wildlife and per qualities in the face of development is painful.

If we must come to some kind of compromise:

Keep the Quigley Road as it is. Motorized traffic moves slower on the gravel and will generall destination that dog owners can let their pets off leash. There are walkers, runners, bikers an crowded.
