DEPARTMENT OF WATER RESOURCES (IDWR)
EMERGENCY PERMIT APPLICATION
TO ALTER A STREAM CHANNEL**

1. Name of Applicant: SV Family Properties LLC Telephone: (530) 320-7359
Fax: () _____
Address: PO Box 6729 Ketchum ID 83340
Street or PO Box City State Zip

Email Address: robert@eoplaw.com

2. Name of Stream: Big Wood River Tributary to: Malad River

3. Location: NE 1/4 SE 1/4 SW 1/4 of SEC. 19 TWP. 04N RGE. 18E B.M., Blaine County

GPS Coordinates: Latitude: 43.661310 Longitude: -114.356360

4. Describe emergency: Northwest bridge abutment fill has slumped due to undercutting of existing riprap and insufficient quantity of riprap. Western stream bank downstream of bridge approx. 310' is actively eroding westward and jepordizes mature established trees and riparian vegetation.

5. Describe type of work proposed, including volume and type of material to be discharged or removed. Attach a vicinity map and sketch of work, including cross section and plan view diagrams:
Angular stone placed from bank at both locations.

GENERAL CONDITIONS OF PERMIT:

1. No equipment shall be operated inside the stream channel unless specifically authorized by this permit. Sediment buildup within 100 feet of a structure (such as bridges, culverts, etc.) may be removed from the channel if it threatens the structure. Excavation is limited to pre-flood contours. Large woody debris shall be left in place when it does not pose a direct threat to structures. All material removed shall be completely removed from the channel and disposed of in an upland location where it cannot re-enter a stream. No disposal in wetlands, waterways, or floodways is permitted.
2. Live trees and shrubs shall not be removed unless it is necessary because of direct threat to life or property.
3. Riprap bank protection shall be limited to a length of 500 feet and 1 cubic yard of rock per running foot. Material shall consist of angular, dense rock, not broken concrete rubble. It shall be large enough to resist displacement during high flows. Gravel shall not be pushed up within the channel to protect or rebuild the bank.
4. Repair of existing dams, riprapped banks, water diversion structures, and roads damaged by flooding is permitted if there is no change from original design.
5. Sandbags may be placed outside the channel or wetlands to protect the perimeter of upland structures.
6. Temporary structures and fills shall be removed from the channel and wetlands immediately after the emergency has passed.
7. A copy of this permit shall be kept at the work site until the work is completed.
8. Emergency work performed under this permit will be reviewed, and if it does not meet IDWR or US Army Corps of Engineers (USACE) standards an additional permit and work may be required after the emergency.

Granting an emergency permit does **NOT** authorize:

- a. An easement or right-of-way to trespass across or work upon property belonging to others;
DO YOU HAVE PERMISSION TO TRESSPASS AND/OR CONDUCT THE WORK? xxx YES NO
- b. Other approval that may be required by Local, State, Federal or Tribal Government;
- c. A waiver of responsibility for damage to property of others due to the work done;
- d. The authority to work in any stream channel beyond the extent necessary to protect life and property during an emergency nor to do any work in the stream channel after the emergency has passed.

The applicant hereby agrees to the terms and conditions of this emergency permit and will minimize the impacts of any emergency actions on the stream channel(s).
