## Temporary Irrigation Strategy

### *Water Truck Supply:*

As mentioned in the revegetation strategy, at first the project plans to temporarily irrigate the revegetation with the use of a water truck. Beau Burks has a water permit with the City of Hailey for his excavation business. Beau has talked directly with Kelly Schwarz at the City of Hailey to clarify if the water supply can be used for his revegetation project. Beau explained the situation to Kelly and that the water use would be used for construction, compaction, dust control, and revegetation. Kelly responded that since Beau pay's to use the water, the City isn't inclined to monitor how the water is used. He also mentioned that once the new water station is built it would be on a meter and the city would have the ability to keep track and bill for the exact amount of gallons used but still would not be monitoring what the water use is for.

### *Domestic Well Supply:*

Temporary irrigation supply after well installation for anything over ½ an acre. Per Idaho Code 42-202A, The State of Idaho Department of Water Resources (IDWR) has the authority to grant temporary approvals for water uses of short duration. The temporary approval cannot exceed 5 acre-feet which is equal to 1,630,000 gallons and may not exceed one year in duration. The project team contacted Zach Latham with Brockway Engineering as he has experience in applying for and receiving several of the temporary water use permits. With his experience he expressed that our project would meet the requirements of the application and most likely could receive approval for the temporary water use. If additional time is needed for the revegetation, another year will be applied for at that time. Once the project receives County approval an application will be completed and submitted to IDWR for the temporary water use. The IDWR application is attached for reference.

STATE OF IDAHO  
DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources ("Department") has examined this application for temporary approval to use water under the provisions of Idaho Code § 42-202A and has determined that:

\_\_\_ A. The application for temporary approval should be denied because \_\_\_\_\_

\_\_\_\_\_

\_\_\_ B. The application for temporary approval should be approved, since

1. The temporary approval can be properly administered.
2. Other water sources are not readily available.
3. The approval is in the public interest.
4. The approval will not injure known public values associated with the water source or any known water rights.
5. If the temporary approval is within a water district, the Department has sought and considered the recommendations of the watermaster.

This application is therefore hereby:

\_\_\_ A. DENIED

\_\_\_ B. APPROVED, subject to the following conditions:

1. Diversion and use of water under this approval is subject to all valid existing water rights.
2. The applicant assumes all risk of the use of the water under this approval.
3. This approval authorizes a maximum diversion volume of \_\_\_\_\_ AF and a maximum diversion rate of \_\_\_\_\_ cfs.
4. This approval does not grant a right-of-way across the land of another.
5. The Department may cancel or reduce the rate of flow or volume authorized by this approval. For example, the Department may cancel or reduce this approval if it concludes the water use is injuring other water rights or adversely affecting fish, wildlife or other public values.
6. The applicant shall not divert water when downstream minimum flow water rights are not being satisfied.
7. This approval does not create a continuing right to use water.
8. A temporary approval for ground water recharge or prevention of flood damage shall be an opportunistic use of surplus water and shall not interfere with the filling of surface water reservoirs.
9. For a temporary approval authorizing ground water recharge or ground water or surface water remediation, the applicant shall measure and record the weekly quantity of water diverted and report the diversion data to the Department upon request.
10. This temporary approval is not an authorization for the described water use to be used as mitigation or credit for any other purpose.
11. Other: \_\_\_\_\_
12. This approval expires on \_\_\_\_\_.

Signed this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_.
